AN INVIGORATING SHOWER EXPERIENCE

WATER - THE ELIXIR OF LIFE

Water is essential for the sustenance of life. Today it is not just imperative for survival, but also recognized as one of the vital sources of holistic wellness. The first race of people to put into practice the benefits that water could bring to mind and body were the Romans, by introducing bathing as a refined daily habit. At Oyster, this process of healing by water has evolved over the years and finds new expression through the charisma of modern technology.

SPLASH OF WELLNESS WITH OYSTER

At Oyster, we magnify the positive effects of water through our extensively researched designs and elevate your experience to inspire total wellness. Our advanced and exquisite range of bath products uses water or hydrotherapy which is the combination of water, heat and air, to promote health and wellbeing.
