Revive your
VIVACIOUS SKIN

Oxyjet

ENTER A LUXURY POOL

FILLED WITH MILKY MICROBUBBLES OF OXYGEN

Enjoy the highest level of detoxification. Microbubbles reduce skin irritation, relax muscle fatigue, prevent appearance of wrinkles and improve blood circulation. Oxygenation of the skin promotes health, slows ageing and makes your skin glow with natural smoothness and softness.

Oxyjet brings you the magic of pure oxygen-infused Hydrotherapy with no additives.

PROBLEM OF POLLUTION

Skin receives all of its oxygen from atmosphere. But oxygen level in earth's atmosphere has fallen to 21% from 38%. The loss of oxygen is affecting our skin in more than one way. To add to the pain is increase in pollution. 5bn pounds of chemicals get added to our atmosphere. Approx. 60000 chemicals are present in atmosphere. All these have also increased temperature leading to dry skin and depletion of collagen, cell decay, skin problems and ageing.

TRAILBLAZING INNOVATION. REVOLUTIONARY TECHNOLOGY.

Oxygen skin therapy is the only and best remedy available. Oxyjet helps hydrotherapy (Venturi Effect Technology) by infusing billions of oxygen micro bubbles in the water, making it look milky. These tiny bubbles are less than 50 micron whereas normal bubbles are bigger than 2500 micron, thus making it 70% more oxygen rich than a normal tap water. Because the microbubbles are negatively charged, they help neutralise radicals, sooth the skin and relax mind and body.

OXYGENATED BATH FOR MIRACULOUS SKIN

Oxyjet infused tiny bubbles are so small that they remain suspended in water (as against bigger bubbles which float to top and burst - throwing the oxygen out of the water). These suspended supersaturated oxygen water engulfs the body, energizes the cells, stimulates immune system, kills bacteria, promotes healing and hydrates the skin.

Call it a miracle or time machine for skin!

FEEL YOUNGER & HEALTHIER WITH OXYJET

Billions of microbubbles remain suspended and keep collapsing thus generating heat energy, keeping the water warm and maintaining low temperature difference with your body. This process helps open your pores, leading them to absorb more oxygen and moisture, thereby giving improved 'sauna effect'. This helps relieve stress, relaxing tired muscles. Opened pores help the microbubbles take away the impurities from the pore making the skin healthy and shiny.

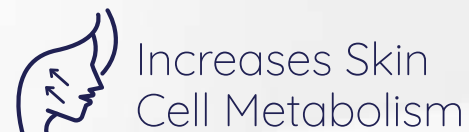

AN OXYRICH BATH FOR YOUR BODY & SOUL

Oxygenated microbubbles provide therapeutic levels of anions (which are negatively charged). These anions help improve serotonin levels in brain. This helps in promoting deep sleep, relaxing body and mind, helps recovering from physical exhaustion. Thus giving an overall good feeling & wellbeing.

AGEING SKIN

A THING OF PAST WITH OXYJET

Oxyjet Advantages

ALSO FOR MEN 

A COMPLETE WELLNESS TREATMENT

Oxygenated water boosts the immunity system by flushing out toxins and helps repair cell ensuring wellness. Oxygen-rich microbubbles invigorate your skin leaving you looking younger and vibrant.

Oxyjet gives you a pampering massage and a complete O₂ wellness treatment.

Oxyjet - a complete wellness treatment inspired by the science of hydrotherapy. A 20-minute bath cycle is all you need to relax from deep inside and feel good about your skin and body. Oxygenated beauty is the answer to pollution and reduced level of oxygen in the environment. As the milky white bubbles surround like a silk blanket, you'll find oxygen transforming your skin gently by reviving and replenishing the cells. It also improves serotonin levels in the skin, inspiring positivity and vitality.
